COUNCIL ENDORSES CODE OF CONDUCT FOR BUSINESSES AND RESIDENTS

Southwark Council has officially endorsed a new Code of Conduct for Shad Thames to provide a framework to protect the interests of residents, businesses and landlords in the area. The new Code, signed by Gill Davies, Director of Environment and Leisure, is an expanded version of the Code introduced a year ago by the Butlers Wharf Residents' Association (BWRA) and agreed by the Conran Group.

Its main function is to regulate noise, deliveries and refuse collection in the area. The new Code is viewed by the Council as a model scheme which can be successfully applied to other mixed residential/commercial developments in the borough such as Bankside.

The Code has been signed on behalf of the BWRA by Chairman John Fletcher who will now be approaching businesses and other residents' associations in Shad Thames to obtain their endorsement.

"We feel that there has been considerable progress in improving our environment in the last 12 months and we hope this will continue" said Fletcher. "While the Code is voluntary, we do have over 2,000 residents in this relatively small area, many of whom have a high level of purchasing power. We shall be asking them to note which organisations agree to sign up to the Code, and abide by it, and calling on them to support these organisations with their custom."

The Code is reproduced overleaf in full:

LIB-DEM LEADER MEETS SHAD THAMES RESIDENTS

The local Lib-Dem councillor, Nick Stanton, spent an evening with Shad Thames residents on 16 April at the Bridge Bar. Southwark Council has been run by Labour – with the narrowest of majorities – over the last four years and the Lib-Dems are hoping to take control at the 2 May elections.

Nick Stanton, who is the Lib-Dem Leader in Southwark, has always been responsive to the needs of local residents, who have pointed out that the contributions in council tax from residents in Shad Thames produce over £1 million per year of Council revenue. If elected with a Lib-Dem majority on 2 May, Nick Stanton has promised major initiatives on education, crime, poverty and the environment.

In the latter context, he has promised to end, within one year, the early morning (0600) council refuse collections in Shad Thames.

FILMING IN SHAD THAMES

Residents will be aware that Shad Thames is a popular location for TV and film producers. BWRA has received complaints on a number of occasions arising from late night or early morning use of arc lights, disturbance from cables, sound recording and parked vans.

We have agreed with Southwark Council that requests to film must be accompanied by a donation to the Residents Association.

Residents also drew his attention to problems in the area associated with crime, street cleaning, parking and planning applications.

Stanton and the Lib-Dems are particularly interested in developing local initiatives such as the Shad Thames Forum.

SECURITY INITIATIVE WITH CORPS OF COMMISSIONAIRES

Residents Associations and businesses are currently investigating the possibility of engaging the Corps of Commissionaires (composed of ex-servicemen) to provide night time security in Shad Thames from 2200-0600hrs. They would also have a role to play in reducing late night noise and early morning disturbance. Preliminary studies indicate that an annual budget of around £70,000 would be required to provide for two staff, with necessary backup, who would patrol Shad Thames and the immediately adjacent streets.

Residents and businesses clearly cannot rely on the police to do this.

Local enterprises such as the Conran Group – who would benefit from reduced insurance premiums – are also interested and we would like to take this further. If enough businesses and residents signed up to the scheme, the cost could be reduced to something like £1 per week per resident.

In the case of residents, for example, this cost could be incorporated into the annual service charge and collected by the managing agents.
